Best Block Company

Keystone Country Manor Wall

Perfect for:

- Gravity retaining walls up to 3' high.
- Parapet walls, pilasters, columns and stairs.
- Outdoor living designs: fireplaces, fire pits, kitchens, benches and more...
- * Higher heights can be reached with proper engineering and the use of Geosynthetic reinforcement.

Unique Finish:

- Offers the Old World appeal of rustic, hand laid stone.

- All units feature two different face dimensions simplifying the creation of random patterns.
- Install as an exposed end unit or a 90° corner, each unit has the flexibility to be used in multiple positions within a project.
- Each unit has both a 90° angle and a tapered (angled) side, allowing the units to be used in 90° corners, tight fitting straight line walls, and radii at curves.

Large: 6"high x 16"/14"wide x 10"deep
65 lbs. Each
Pieces per square foot = 1.5
48 pieces per pallet
Approximate weight per pallet = 3122 lbs.

Approximate pallet weight = 2,960 lbs.

*Rustic Tan only (shown in picture)

Camden Cobble Stone

Creates the appearance of traditional, Old World cobble.

T shaped paver has 4 unique face designs that work together to create a random hand-laid appearance. Uses fewer units than traditional cobble stone.

Ideal for walkways and patios - or install as edging.

Unit Dimensions:

2.362" high x 8" wide x 16" deep

14 lbs. each

Stones per square foot = 1.5

Stones per pallet = 208

Approximate pallet wt. = 2,912 lbs.

*Ash color only (shown in picture)

Best Block Company

Alameda Stone

Alameda Stone combines the appearance of naturally weathered stone with impressive design versatility.

Multiple face designs create a random pattern with natural stone appeal. Use of XeriStone® technology helps eliminate detectable patterns and creates a stronger interlocking connection between units. A homeowner's favorite, Alameda Stone is both lightweight and easy to install.

Unit dimensions:

2.362" high x 11" wide x 13" deep

26 lbs. each

Stones per square foot = 1

Stones per pallet = 110

Approximate pallet weight = 2,860 lbs.

*Tan / Gray only

Complete Line of Standard and Specified Concrete Block

Best Block produces Standard, Split Face and Ground Faced Concrete Masonry Units (CMU's) and are a distinctive and economical way to build virtually any commercial, industrial or retail project. They can be used for multiple applications from practical single-Wythe load-bearing walls to masonry veneers or wainscots on a wide variety of projects.

Best Block CMU's meet or exceed the standards of ASTM C 90 and are available in a variety of shapes, sizes and colors. Split Face Masonry walls offer these benefits: Reduced installation costs, Reduced building life-cycle cost . Durable, fast and simple concrete masonry construction. Safe and secure buildings, Pleasing interior and exterior surfaces, Versatility, in load-bearing or veneer applications.
