At Best Block we strive to give our customers a no-hassle approach to building. We offer a full range of masonry and landscape products including standard concrete masonry units, residential and engineered retaining wall products, pavers, broad selections of residential and commercial clay brick, as well as Best Brick for both residential and commercial applications. We also offer a complete selection of accessories, along with attachments and masonry supplies.

RETAINING WALLS

Tan/Charcoal Country Manor 2-Piece Wall & Cap

Description:

Keystone Country Manor 2-piece wall system brings the rustic charm of Old-World Europe to your landscape. The 6-in. small unit is a perfect complement to the 16-in. large Country Manor unit. When used alone, the 6-in. small unit is ideal for tight radius projects, like fire pits or planters. Complete with the latest in modular pin connection technology, Country Manor provides strength and ease of installation to every project.

Perfect for:

Planters • Columns • Fire Pits • Free Standing Walls • Capping Units

Stones per pallet/96 Pallet wt./3,930 lbs

Step by Step

Go to www.kestonewalls.com for step by step instructions for building attractive outdoor living elements using the Country Manor product, including designs for a mailbox column, bench, fire pit and more.

HOW DO THE PINS WORK?

USES PIN CONNECTION TECHNOLOGY

Pin Placement

Insert Keystone interlocking pins into the desired pin holes in the outside holes of the block for either a 1" positive or negative setback, or in the middle pin hole for a vertical wall.

Adding Courses

Stagger the bond from the previous course as shown. Pins from the lower course will secure into the pin receiving channel in the bottom of the unit being installed.

RETAINING WALLS

3.5-in. x 11.5-in. Tan/Grey Olde Manor Wall ITEM# 456199

Description:

The Olde Manor Wall perfectly combines a naturally weathered finish with a subtle blend of colors to create a wall unit that is as visually appealing as it is easy to install.

Unit A: 3" H x 7.5"/6.25" W x 5" D

Unit B: 3" H x 8.7"/7" W x 5" D

Stones per linear ft./1.6 Wt./9 lbs

Stones per pallet/320 Pallet wt./2,880

12-in. Tan/Grey Alameda Edger ITEM# 388412

Description:

Give your backyard the feel of a nature preserve. Keystone 12-in. Alameda Edger complements the surroundings of your outdoor living area. Multiple unit designs and varying stone heights combine to create random patterns, giving this edger a distinctive natural beauty. The natural stone design also results in seamless borders along with increased design flexibility and ease of installation. Create traditional squares, elegant circles, ovals, intersections and serpentine; in addition to oscillating connections, up to 180 degrees.

Perfect for:

Patios • Walkways • Garden Edging • Lawn Edging • Borders

Unit dimensions:

3.625" H x 3.625" W x 12" L

Stones per linear ft./1 Wt./10.5 lbs

Stones per pallet/252 Pallet wt./2,646 lbs

11.8-in. Geometric Edger

Description:

The 11.8-in. Geometric Edger redefines edging. Sleek styling gives this edger a modern feel. This new product design provides seamless borders and maximum design flexibility; a 90 degree corner can be made in the middle of the unit. This edger features an oscillating connection, up to 180 degrees, for easy creation of traditional squares, elegant circles, ovals, intersections and serpentine.

Perfect for:

Planter Boxes • Tree Rings • Borders • Garden Edging

Unit dimensions:

3.125" H x 3.125" W x 11.8" L

Stones linear ft./1 Wt./8 lbs

Stones per pallet/360 Pallet wt./3,020 lbs

Tan - ITEM# 455577

Red - ITEM# 455576

PATIO STONES, PAVERS & EDGERS

11-in. x 13-in. Tan/Grey Alameda Stone ITEM# 388414

Description:

Alameda Stone combines the appearance of naturally weathered stone with impressive design versatility. Multiple face designs create a random pattern with natural stone appeal. Use of XeriStone® technology helps eliminate detectable patterns and creates a stronger interlocking connection between units. A homeowner's favorite, Alameda Stone is both lightweight and easy to install.

Perfect for:

Patios • Walkways

Unit dimensions:

2.362" H x 11" W x 13" L
Stones per square ft./1 Wt./26 lbs
Stones per pallet/110 Pallet wt./2,860 lbs

One unit size - four unique faces.

8-in x 16-in Ash Camden Cobble Stone ITEM# 631797

Description:

Creates the appearance of traditional, Old World cobble. T shaped paver has 4 unique face designs that work together to create a random hand-laid appearance. Uses fewer units than traditional cobble stone. Ideal for walkways and patios - or install as edging.

Perfect for:

Patios • Walkways

Unit Dimensions:

2.362" H x 8" W x 16" L
Stones per square ft./1.5 Wt./14 lbs
Stones per pallet/208 Pallet wt./2,912 lbs

One unit size - four unique faces.

11.625-in Rustic Tan Lundurra Paver ITEM# 756656

Description:

Achieves the warmth and casual elegance of hand-laid stone in less time and effort. Lundurra is an innovative "L" shaped unit that features four unique face designs with a stunning slate texture.

Perfect for:

Patios • Walkways

Unit Dimensions:

2.375" H x 11.625" W x 11.625" L
Stones per square ft./1.33 Wt./18.5 lbs
Stones per pallet/160 Pallet wt./2,960 lbs

One unit size - four unique faces.

ACCESSORIES

50 Pack Interlocking Pins ITEM# 346696

Used with:

Country Manor Wall

KEYSTONE® ALIGNMENT PIN SYSTEM

It makes the difference, the Keystone Alignment Pin.

WHY PINS?

Pins matter because you care about...

Performance

Keystone alignment pin system adds strength and structural integrity to a retaining wall far superior to that of a rear lip system. Keystone alignment pins are designed to provide the best wall performance – they ensure the wall unit is installed in alignment and maintains alignment and stability for years to come.

Installation

Allowing for secure installation with ease, Keystone alignment pins take the question out of proper block placement, reducing time and improving your installation experience. Keystone pins easily slide into the pin channels of Keystone Country Manor wall units; securing them in place. (See product specific installation instructions for additional details.)

No Maintenance

Keystone alignment pins are weatherproof, allowing the wall to withstand the freeze-thaw process, and other weather challenges.

Savings

Using Keystone alignment pins saves you time and money. Keystone pins reduce the cost of concrete adhesive and simplify the installation process. Projects using Keystone pins require little, to no, repair over their lifetime.
